Yes your re-write is correct. That was due to my hasty edits. Sorry.

HA – Health Advisory, correct?

Is this sentence correct (it was chopped up, so I made some edits. Want to make sure it's correct this way) "PFOA was found in drinking water wells resulting in EPA issuing the first of three Safe Drinking Water Act emergency orders in 2001, and one amended Order to DuPont and now Chemours for PFOA."

Made a few other edits (minor... like changing distally to distantly). New one is attached. I am sending to Cecil as is... so let me know the answers above as soon as possible.

Thanks!

Here's the write-up on the Chemours Washington Works plant.

Cathy, let me know if you want me to send them to Cecil or if you will. I have to run to catch a train but will be able to work on these this evening.

Rick
